

American Pool Consultants

The National Swimming Pool Foundation's CPO Course is presented by American Pool Consultants. The course includes updated material that is vital to the pool operator.

Course Material Includes:

- * Pool Water Contamination
- * Disinfection and Sanitization
- * Chemical Feed and Control
- * Heating and Air Circulation
- * Keeping Records
- * Facility Safety
- * Water Balance

The CPO Course is an intensive 14 hours of instruction, followed by an open book exam, and is recognized in all states which require certification of Pool/Spa Operators. You will earn your certification as a Pool/Spa Operator with a grade of 75% or better on the exam.

Go With "The Best"

American Pool Consultants has earned a reputation for conducting high quality courses. We are a small company which focuses on QUALITY, not quantity. We keep our classes small to ensure a good teaching environment, and to allow ample opportunity for questions and personal attention

About The CPO Course

Our registration fee includes the NSPF Certified Pool/Spa Operator Handbook, all educational materials and handouts, your exam, and upon passing the exam, your Certification with NSPF.

You Will Need

Since the test is an "open book" test, note taking and organization skills are extremely important. We recommend that you bring a "Hi-Liter" pen to mark up your textbook, so you can easily and quickly locate information during the test.

It is also important that you bring a calculator with you. Much of the course involves calculations, and you will do much better if you have a calculator that you are familiar with, as opposed to using one of our "loaners".
